

PATIENT ID PT-4296	SCREENING DATE 21 Aug 2026	MODE USED Mode 2 — Image Only
-----------------------	-------------------------------	----------------------------------

CLINICAL PARAMETERS

No clinical data provided for this screening. Risk assessment based on retinal image analysis only.

RETINAL IMAGE ANALYSIS — GRAD-CAM

Original image

Grad-CAM heatmap

Heatmap highlights regions the model identified as most influential in classifying this retina as **Moderate NPDR (Stage 2)**, 53.0% confidence.

CLINICAL RECOMMENDATIONS

- No clinical data was provided — this assessment is based on retinal imaging only. Clinical parameters are recommended for a more complete risk profile.
- Continue routine annual diabetic retinopathy screening.
- Continue standard diabetic eye care schedule.
- No urgent ophthalmological referral indicated based on current screening result.
